To Whom It May Concern:

I think MICROSOFT is a NATIONAL TREASURE !!! The USA is the world leader in the IT arena because of Microsoft. Get off their case and solve the real problems in DC. Get on Enron'e case!

It seems that our inept politicians are always biting the hands that feed them. I recall the leering little gnomie bureaucrats doing their gleeful act in front of the TV cameras when Microsoft was found "guilty" of violating the antitrust act.; the typical small-man finally having an opportunity to enlarge his own self-image by getting even with the big guy on the beach who kicked sand on him. (You have to be old enough to remember the Charles Atlas ad of years ago;-)

Enough already! Let's get on with our lives and let Microsoft continue to lead the world in IT innovation.
